TEXAS SHEEP DOG ASSOCIATION RULES

I.

STATEMENT OF PURPOSE

The Texas Sheep Dog Association, Inc. ("TSDA") was founded in 1963 and incorporated in 1981 to advance and create an interest in the breeding and training of working stock dogs across Texas. Also, through a system of awards and sheep dog trials, to encourage the continual development of better stock dogs and their applied use on modern farms, ranches, and livestock operations. While fulfilling this purpose, the TSDA seeks to build cordial relationships in the community and to promote humane treatment of dogs, sheep, cattle and goats.

II.

OVERVIEW

A. ABOUT THIS DOCUMENT: The information contained within was created to provide TSDA members with a uniform set of rules and guidelines regarding TSDA sanctioned events. In general, rules must be adhered to and may carry penalties for not doing so; guidelines provide more flexibility and serve to identify common practices or options available to competitors and trial hosts. Rules contain language such as "will", "must", or "may not" (or similar inflexible expressions). Guidelines contain language such as "may" or "can" (or similar more flexible expressions). The Class Definitions section provides dog and handler information. The General Rules & Guidelines section provides other useful information.

B. INFORMATION: TSDA maintains a website located at www.texasheepdogassoc.org. Website information is updated frequently and provides the most comprehensive source of information for both members and non-members. The website contains TSDA Rules, trial entry forms, trial sanctioning forms, standings, as well as, United States Border Collie Handler's Association ("USBCHA") & International Sheepdog Society ("ISDS") rules and/or guidelines.

C. CLASSES: The TSDA recognizes the following classes: Open, Open Ranch, Nursery, Ranch, Novice, and Youth. To compete in a class both handler and dog must meet the requirements as stated in their respective definitions, i.e. Open Class: Open Handler, Open Dog.

D. COURSES: The typical National Style trial course is run in an open field. However, trials can also be run in indoor and outdoor arenas, baseball diamonds, city parks, etc. The phases of work in a full course most often include, but are not limited to, the outrun, lift, fetch, drive, pen, and shed or single. Obstacles (such as panels) are usually set up and the dog is required to maneuver the livestock in, around and through them in a workmanlike manner using as straight a line as possible from one to another. The trial host and/or trial committee most often set up the course and may incorporate, as part of the course, obstacles already part of the trial field, e.g. a bridge, creek, etc. A complete description of the National Style course can be found in the ISDS rules posted on the TSDA website. Courses differ in difficulty from class to class. The courses, in order of

difficulty, starting with the most difficult are: Open, Open Ranch, Nursery, Ranch, Novice, Youth.

E. SCHEDULES: The Dog of the Year points schedule is strictly adhered to. Premium Money Schedules One and Two regarding number of places to pay and allocation of premium moneys amongst the placings attached at the end of these rules are recommended guidelines for trial hosts. The division of premium money is at the trial host's discretion. Trials not following the Premium Money Schedules One and Two must advertise that other schedules will be used. Advertising can be done on the TSDA website. A maximum of two (2) premiums per class per handler are paid.

F. STATE FINALS: Each class, except for the Youth Class, is represented at the TSDA'S State Finals trial ("State Finals"). Trophies are awarded to the State Finals champion in each class. State Finals champions are determined by their performance at the State Finals. To be eligible for the State Finals a dog competing in Open, Open Ranch, Nursery, Ranch and Novice Classes must compete in 5 TSDA trials (each trial a "Qualifying Run") in its class during the year of the State Finals. In the event a dog is voluntarily advanced from a lower class to a higher class during the year of the State Finals, the runs from both classes will be treated as Qualifying Runs for the class advanced to. Non-members and Open & Nursery dogs without 5 Qualifying Runs (collectively "Non-Qualifiers") will nevertheless be allowed to compete in the State Finals in the Open and Nursery classes, but will not be eligible to become the TSDA State champion in either class. In addition, Open Class Non-Qualifiers will not be eligible to compete in the double lift final. The trial year for Open, Open Ranch, Ranch and Novice Classes begins with the first trial after the State Finals. To be eligible to become the State Finals champion, a Nursery dog must compete in 5 TSDA trials (each trial also a "Qualifying Run") during the immediately preceding Nursery Class trial year. The trial year for the Nursery Class begins on August 1st and ends on July 31st of the following year. All Qualifying Runs for Nursery Class must be completed on or before July 31st of the year in which the State Finals is held. A Nursery dog to be eligible to become the State Finals champion in the Open or Open Ranch classes must have 5 Qualifying Runs in the class it will compete in at the State Finals. In the event a Nursery dog is voluntarily advanced from Open Ranch Class to Open Class, during the year of the State Finals, then the Qualifying Runs from both Open Ranch and Open classes will be treated as Open Class Qualifying Runs. TSDA's nursery dog age rule is the same as that of the United States Border Collie Handlers Association ("USBCHA"). A dog is eligible to compete in Nursery Class at the State Finals if its 3rd birthday falls on or after July 1st of the year in which the State Finals trial is held. Nursery dogs which qualify to become the State Finals Nursery Class champion, but which are no longer considered to be USBCHA Nursery dogs will be removed from the run order results prior to reporting the State Finals Nursery Class results to USBCHA. The TSDA State Finals champion for each class will be the highest placing TSDA members with 5 Qualifying Runs.

G. DOG OF THE YEAR: Dog of the Year ("DOY") points are awarded each trial year. The maximum number of DOY points that may be earned in a class at a trial is determined by adding (1) point for every three (3) entries. DOY Points are then awarded for each placing in a trial in accordance Dog of the Year Points Schedule set forth below. Scratched entries and no shows are not considered for purposes of calculating DOY points. Classes with less than three (3) entries are considered Qualifying Trials, but do not award Dog of the Year points. Qualifying Runs and DOY points are earned by and

belong to the dog regardless of handler or ownership changes. The Handler must be a paid, participating or family member prior to going to the post to be considered a Qualifying Trial and before the dog can earn Dog of the Year points. Both fully judged or timed field or arena trials will award DOY points and are considered to be Qualifying Runs for the TSDA Finals. There shall be no restriction on the number of trials that a dog may run in to earn DOY points. At the Finals Trial, trophies for Dog of the Year are awarded in each class. Dogs moved down within TSDA guidelines are not eligible to compete for DOY in the lower class. Except for Nursery Class, Dog of the Year points begin with zero (0) points starting with the first TSDA sanctioned trial following the Finals Trial. For the Nursery Class, DOY points earned at the Finals Trial are added to DOY points earned through the end of Nursery trial year (July 31st of the year of the finals). Nursery dogs start off the Nursery trial year (August 1st) with zero DOY points. A dog that moves to a higher class during the trial year retains any DOY points earned in the lower class. The high point dog takes Dog of the Year honors even though that dog may have moved up.

Dog of the Year Points Schedule (all classes):

# Entries	1st	2nd	3rd	4th	5th	6th	7th	8th	9th	10th

H. LIFETIME POINTS: Lifetime points are accumulated DOY Points earned by a dog in a class over the course of its life (“Lifetime Points”). Open Ranch, Ranch and Novice dogs earn both DOY and Lifetime Points in each class. Open and Nursery dogs, while earning DOY points in their respective classes each year, do not accrue Lifetime Points in either class. Youth Class does not accrue DOY or Lifetime Points. Lifetime Points begin to accumulate in a class once a dog earns its first DOY point in that class and shall continue to accumulate for the life of the dog or until the dog points out or advances to a higher class. DOY points retained by a dog that moves to a higher class during the trial year for purposes of determining that year’s Dog of the Year are not to be counted as Lifetime Points earned in the class advanced to. A dog will earn Lifetime Points,

irrespective of whether the owner/handler running the dog is a member of TSDA or not. All Lifetime Points earned by a dog as a drop-down dog in a class continue to accumulate towards the dog’s total Lifetime Points in that class.

I. COMPULSORY ADVANCEMENT REQUIREMENTS: Any dog that begins its trial year with less than 100% of the Lifetime Points required to point out of its class may continue to run in the same class for that trial year with no restriction on the number of DOY points it can accrue. However, such a dog must move up following the State Finals if it has reached or exceeded the Lifetime Points requiring advancement. In Novice Class both the handler and the dog are subject to compulsory advancement. A novice handler whose dog(s), whether one or more, have collectively accumulated the number of Lifetime Points for a single dog to point out of Novice Class will be required to advance to a higher class. The number of Lifetime Points for a dog to point out of each class are as follows:

Open Ranch - 75 or more*

Ranch - 35 or more*

Novice - 28 or more*

* See, Drop-Down Rules For each class, which affect the number of Lifetime Points that a drop-down dog may earn in a class.

J. SANCTIONING: The rules herein apply to TSDA sanctioned trials only. Points, trophies, and earnings awarded by other associations are not considered in determining TSDA’s Dog of the Year awards or in accumulating Lifetime Points. For a class or trial to count as a TSDA sanctioned trial and receive TSDA DOY or Lifetime Points, it must be advertised in the TSDA website at least 14 days prior to the date of the trial or class. The trial host has the option of adding additional classes after the 14-day period but these classes will not be considered to be sanctioned and cannot be counted towards TSDA DOY or Lifetime Points, nor can these scores or points be added into the scores or points from a sanctioned class. TSDA will only sanction trials held in the state of Texas or in an adjoining state.

K. EXHIBITION: Trial hosts have the option of allowing exhibition runs during the course of the trial. These runs are non-competitive and place no restriction on a dog or handler. The handler must pay the TSDA fee plus any fee required by the trial host and/or trial committee, e.g. stock charge. The handler does not receive prizes or money, nor

does the dog receive Dog of the Year points. A dog may not run exhibition and then compete in another class during the same trial, e.g. run exhibition in the Open Ranch then compete in the Ranch.
